Type: **demo (15-minute)**

# Active Learning Made Easy with Pivot Interactives

*Saturday, April 1, 2023 9:00 AM (15 minutes)*

Teachers know that students are engaged by active learning, but creating active learning environments and opportunities takes time, expertise, equipment, and supplies. It is challenging or impossible to do as often as we would like. We will explore interesting ways to engage students with MORE active learning and “doing science” throughout the learning cycle, without these constraints or added burden using Pivot Interactives.
