

# PATHWAYS TO QUANTUM SUMMER IMMERSION PROGRAM

[www.pqic.org/pathways](http://www.pqic.org/pathways)

[go.gmu.edu/QuantumEd](http://go.gmu.edu/QuantumEd)

**DISCOVER THE WORLD OF QUANTUM THIS SUMMER  
JUNE 26 - JULY 19, 2024**

## ABOUT THE PROGRAM

The George Mason University Quantum Science and Engineering Center and the Potomac Quantum Innovation Center are excited to invite rising high school seniors to participate in the Pathways to Quantum Summer Immersion Program. Join peers from around the Greater Washington region to participate in an introduction to quantum via a virtual course followed by a week-long in-person experience visiting workplaces engaged in different parts of the quantum ecosystem. This experiential learning program provides students with a basic understanding of quantum and of the career opportunities available in this area.

The summer program will be free of charge for students, including room and board at George Mason University for the in-person week and a \$500 stipend upon completion of the program. Students will learn about the fundamentals of quantum, receive two online credentials, and discover how this emerging technology is poised to change the world.

**JUNE 26 - JULY 10, 2024**

**Quantum Discovery For Students**  
(Virtual Course)

**JULY 14-19, 2024**

**Quantum Explorer For Students**  
(In-Person Camp)

## APPLICATION

For more information and the application form, visit [www.pqic.org/pathways](http://www.pqic.org/pathways).

The application is due by Monday March 18th at midnight. Selected applicants can expect to hear back by Friday April 12th.

To apply,  
scan or visit
